Forward Looking Statements

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are not historical facts and include expressions about management's confidence and strategies and management's expectations about our business, new and existing programs and products, acquisitions, relationships, opportunities, taxation, technology, market conditions and economic expectations. These statements may be identified by such forward-looking terminology as "intend," "should," "expect," "believe," "view," "opportunity," "allow," "continues," "reflects," "typically," "usually," "anticipate," "may," "estimate," "outlook," "project", "imperatives" or similar statements or variations of such terms. Such forward-looking statements involve certain risks and uncertainties. Actual results may differ materially from such forward-looking statements. Factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include, but are not limited to: the impact of monetary and fiscal policies of the federal government and its agencies, including in response to higher inflation, which could have a material adverse effect on our clients, as well as our business, our employees, and our ability to provide services to our customers; the impact of a potential U.S. Government shutdown, default by the U.S. government on its debt obligations, or related credit-rating downgrades, on economic activity in the markets in which we operate and, in general, on levels of end market demand in the economy; the impact of unfavorable macroeconomic conditions or downturns, instability or volatility in financial markets, unanticipated loan delinquencies, loss of collateral, decreased service revenues, increased business disruptions or failures, reductions in employment, and other potential negative effects on our business, employees or clients caused by factors outside of our control, such as geopolitical instabilities or events (including the Israel-Hamas war); natural and other disasters (including severe weather events); health emergencies; acts of terrorism or other external events; risks associated with our acquisition of Bank Leumi Le-Israel Corporation (Bank Leumi USA), including (i) the inability to realize expected cost savings and synergies from the acquisition in the amounts or timeframe anticipated and (ii) greater than expected costs or difficulties relating to integration as part of Valley's new core banking system implemented in the fourth quarter 2023; the impact of potential instability within the U.S. financial sector in the aftermath of the banking failures in 2023, including the possibility of a run on deposits by a coordinated deposit base, and the impact of the actual or perceived soundness, or concerns about the creditworthiness of other financial institutions, including any resulting disruption within the financial markets, increased expenses, including FDIC insurance premiums, or adverse impact on our stock price, deposits or our ability to borrow or raise capital; the impact of negative public opinion regarding Valley or banks in general that damages our reputation and adversely impacts business and revenues; the loss of or decrease in lower-cost funding sources within our deposit base; damage verdicts or settlements or restrictions related to existing or potential class action litigation or individual litigation arising from claims of violations of laws or regulations, contractual claims, breach of fiduciary responsibility, negligence, fraud, environmental laws, patent, trademark or other intellectual property infringement, misappropriation or other violation, employment related claims, and other matters; a prolonged downturn in the economy, as well as an unexpected decline in commercial real estate values collateralizing a significant portion of our loan portfolio; higher or lower than expected income tax expense or tax rates, including increases or decreases resulting from changes in uncertain tax position liabilities, tax laws, regulations and case law; the inability to grow customer deposits to keep pace with loan growth; a material change in our allowance for credit losses under CECL due to forecasted economic conditions and/or unexpected credit deterioration in our loan and investment portfolios; the need to supplement debt or equity capital to maintain or exceed internal capital thresholds; greater than expected technology related costs due to, among other factors, prolonged or failed implementations, additional project staffing and obsolescence caused by continuous and rapid market innovations; cyberattacks, ransomware attacks, computer viruses, malware or other cybersecurity incidents that may breach the security of our websites or other systems or networks to obtain unauthorized access to personal, confidential, proprietary or sensitive information, destroy data, disable or degrade service, or sabotage our systems or networks; results of examinations by the Office of the Comptroller of the Currency (OCC), the Federal Reserve Bank, the Consumer Financial Protection Bureau (CFPB) and other regulatory authorities, including the possibility that any such regulatory authority may, among other things, require us to increase our allowance for credit losses, write-down assets, reimburse customers, change the way we do business, or limit or eliminate certain other banking activities; our inability or determination not to pay dividends at current levels, or at all, because of inadequate earnings, regulatory restrictions or limitations, changes in our capital requirements or a decision to increase capital by retaining more earnings; unanticipated loan delinquencies, loss of collateral, decreased service revenues, and other potential negative effects on our business caused by severe weather, pandemics or other public health crises, acts of terrorism or other external events; and unexpected significant declines in the loan portfolio due to the lack of economic expansion, increased competition, large prepayments, changes in regulatory lending guidance or other factors. A detailed discussion of factors that could affect our results is included in our SEC filings, including the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2022 and in Item 1A of our Quarterly Report on Form 10-Q for the quarter ended September 30, 2023. The financial results and disclosures reported in this release are preliminary. Final 2023 financial results and other disclosures will be reported in our Annual Report on Form 10-K for the year ended December 31, 2023, and may differ materially from the results and disclosures in this document due to, among other things, the completion of final review procedures, the occurrence of subsequent events, or the discovery of additional information. We undertake no duty to update any forward-looking statement to conform the statement to actual results or changes in our expectations, except as required by law. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

Significant Strategic Progress

➤ Above-Average Tangible Book Value Growth

- Since 2018, growth in tangible book value plus dividends paid totals 90% ¹, well above our proxy peer median of 53%.
- Continue to believe that tangible book value growth over time will drive shareholder value.

➤ Enhanced Funding Diversification

➤ Substantial Exposure to Compelling Growth Markets

- Florida’s diverse and dynamic economy continues to be supported by significant inflows of permanent population and wealth.
- These long-term demographic trends provide substantial growth opportunities and supplement our strong and stable northeast markets.
- Our Florida portfolio has grown at a 30% CAGR since 2014, or more than 2x our non-Florida loans, and now comprises 24% of loans, up from 8% in 2014.

¹ Please refer to the Non-GAAP Disclosure Reconciliation in Appendix.

Strategic Imperatives for 2024

Grow Core Deposits

- Utilize enhanced treasury management capabilities to further penetrate commercial customers.
- Optimize delivery channels and streamline product set.
- Leverage existing specialty niches and explore new opportunities.

Focus on C&I and Non-Investor CRE Loan Growth

- Further penetrate our commercially vibrant footprint.
- Restructured commercial banking organization and incentive programs to optimize alignment with strategic and financial goals.
- De-emphasize investor CRE and multifamily growth.

Drive Sustainable Fee Revenue

- Continue to scale our wealth, insurance, and tax credit advisory businesses.
- Expand F/X and treasury management solutions.
